User Interface Overview

The WordFinderApp user interface is designed to be intuitive and easy to use. Here's a brief overview of the different parts of the interface:

Using WordFinderApp

To use WordFinderApp, please follow these steps:

The grid for the matrix

This grid is used to show the matrix where the words are going to be looked for. Here you are able to clear the matrix, generate a random matrix or personalize the matrix.

For clear the matrix, just press the Clear button

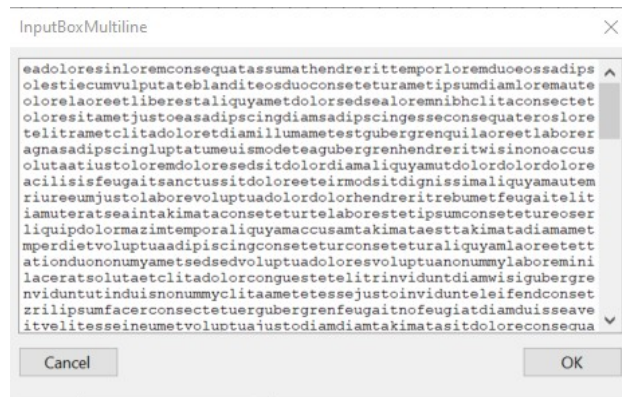

Clear

For generate a random matrix, just press the Random button

Random

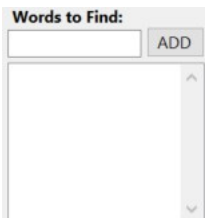

For personalize the matrix, follow this steps:

1. Press the Personalized button 
2. The InputBoxMultiline windows is going to be show:

3. Edit the matrix to your needs. You could even clear all and start over a clean matrix. The matrix must be 64x64.
4. Click the OK button 
5. The new personalized matrix is shown on the grid.

The words to find list

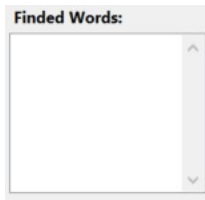

For add a new word to the find list, follow this steps:

1. Write a new word.
2. Press enter key or clic on the ADD button 
3. The new word is shown in the list.

For remove a word from the list, just dobbble clic on the word to be removed.

The finded words list

This list is used to show the top 10 finded word in the matrix.

Look for the words

To searches the matrix to look for the words from the words to find list, just clic on the Find Words » botton

Followed rules to search at the matrix:

- Words may appear horizontally, from left to right, or vertically, from top to bottom
- If any word in the words to find list is found more than one within the matrix, the search results count it only once
- The search will return the top 10 most repeated words from the words to find list
